Power Chip Information

For 7.6 liter & 8.1 liter engines (Pre-Common Rail)

The chip shown here is available in 10%, 20%, or 30% power increase from rated HP.

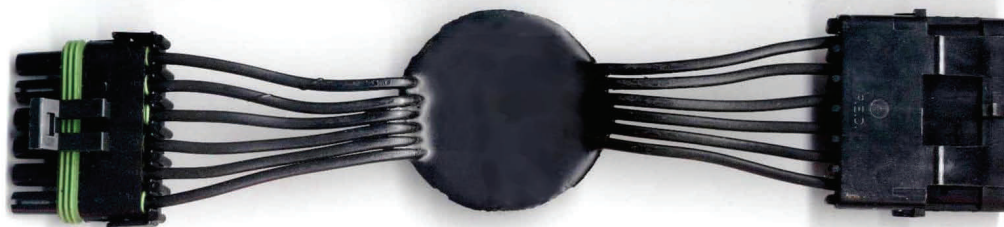

These chips plug directly into the wiring harness a little ways from the injection pump.

Fits the following John Deere Tractors :
 8100, 8200, 8300, 8400, 8110, 8210, 8310, 8410, 8570, 9100

Fits the following John Deere Combines:
 9500, 9600, 9510, 9610, 9550, 9650, 9750 up to 2001 year

NOTE: If tractor or combine above has a 7.6 liter engine, then the injection pump MUST be a Bosch. The chip will not work if the 7.6L engine has a Nippondenso pump. (And we do not offer a chip for a 7.6L with Nippondenso)

These chips are \$440.00 for any percentage. Chips are not adjustable (no dials or switches). Comes with a 30 day warranty. Returns/Exchanges are subject to 20% restocking fee. Note: plugging two chips in series does not work (For example: Plugging two 20% chips in series does not give you 40%).

NOTE: 20% MAXIMUM RECOMMENDED FOR HIGH FACTORY HP TRACTORS OR COMBINES

For 6.8, 8.1 & 9.0 liter engine up to 2007 (Common Rail)

The chip shown here is available in 10%, 20%, or 30% power increase from rated HP.

These chips plug into the rear of the "common fuel manifold" at the sensor.

Fits the following John Deere Tractors with 8.1 or 9.0 liter w/ common rail fuel system with 3-prong plug-in at fuel manifold sensor.

8020 & 8030 Series; 7010 & 7020 & 7030 Series; 6020 Series

Fits the following John Deere Combines with 8.1 or 9.0 liter w/ common rail fuel system with 3-prong plug-in at fuel manifold sensor:
 9550, 9650, 9750 year 2002 & newer; 9560, 9660, 9760 (all)

Fits the following other applications w/ common rail fuel system:

6103, 8103, 8104, 8144 Terragator; 4990, 4895, 4995 Windrower; 7200 Forage Harvester

(Note: "other applications" list is not complete—call to see if we have a chip for your application based on engine size)

These chips are \$440.00 for any percentage. Chips are not adjustable (no dials or switches). Comes with a 30 day warranty. Returns/Exchanges are subject to 20% restocking fee. Note: plugging two chips in series does not work (For example: Plugging two 20% chips in series does not give you 40%).

NOTE: 20% MAXIMUM increase for high HP 20 Series tractors & ALL 30 Series tractors & all high HP Combines.

OTHER INFORMATION:

On combines, the "Power Bulge" will still be there. Your tractor or combine will burn more fuel per hour, but LESS PER ACRE, meaning you will get more work done in less time! In a short period of time, the chip will pay for itself in fuel & time savings!

We stock all chips and can ship your order quickly, usually the same day! Shipping is \$12.00 for standard UPS Ground. Other shipping options are available and rates will vary per request.

Installation instructions will accompany your order. If you have any further questions, don't hesitate to call us TOLL FREE 1-888-889-1504 or e-mail us at info@schlagel.net.
