FOLDING BARS MAKE TRANSPORT EASY

# Till-N-Plant 2B

*Built By Farmers... For Farmers*

If you do strip till, then do it right with a "Till-N-Plant 2B" from Schlagel Mfg. This is our 18th production year of the Till-N-Plant machine line and a huge amount of experience and knowledge has gone into developing this next generation Till-N-Plant. The 2B unit has NEW changes for 2013!

Hydraulic Trip/Reset units keep you moving in even the rockiest conditions

Row Unit Wt: 750-800# depending on options. Standard options are: 3/4" shear-bolt shank (with new cast steel points), 22" front flat coulters, 20" rear wavy coulters, 16" long-rod dual wheel rear packers.

Upgrade Options: Hydraulic-Trip System (no need to stop to reset shanks, they reset themselves as you go!), 20" dual wheel packer wheels, spring-loaded row cleaners, single or dual application liquid fertilizer equipment (dry fertilizer application tubes are also available), and trailer hitches. Complete units are available in row widths down to 20". Common machines are 6, 8, 12, & 16-row in widths of 22, 24, 30 & 36".

Till-N-Plant 2 coupled with our Planter Caddy (with 850 gal. tank) and a JD Planter.

- Individually floating Row Units have Semi-Parabolic 3/4" shear bolt shank, new cast points & are strong & easy to adjust
- Till from 4" to 16" deep while creating a great seed bed
- Easy pin adjustments for wavy coulters, firming wheels & down pressure
- One-bolt adjustment for the front coulters
- Easy for any individual to set for their soil/trash conditions
- Apply fertilizer at two different depths under the seed at the same time
- CAT IV: 12 & 16-Row machines now available with category IV three-point hitch. All machines are available as folding or non-folding bars with 3-point hitch or planter caddy mounts.
- Many more options available—contact us or your dealer for further details

THE TILL-N-PLANT 2 CAN TILL BETWEEN THE ROWS, DOWN THE OLD ROW OR JUST PICK A DIFFERENT ANGLE

New 2B Unit

ADJUST YOUR TILL-N-PLANT 2 FROM 4" TO 16" DEEP AND STILL MAKE A GREAT SEED BED

SPRING-LOADED ROW CLEANERS WILL CLEAR THE SEED BED SURFACE
