SCHLAGEL

Wire Handler

Easy To Use & Dependable!

Schlagel Mfg.'s Wire Roller is built tough for years of dependable service. Comes with category 2 & 3 & 3N three-point hitch. Hydraulic drive and pulley system provides smooth operation.

Spool is 6" dia. and 40" wide with 22" dia. endplates. Endplates have 12 holes for attaching wire. Center shaft is 1.5" dia. Belt safety shield (included) removed for clarity
TO ROLL UP WIRE: Attach end of wire to spool endplate, actuate tractor hydraulics, adjust spool speed with flow control valve.
TO UNROLL WIRE: attach end of wire to solid object (post), adjust slip brake to prevent spool free-wheeling, and slowly drive away.

Note: Belt Transmission Safety Shield has been removed for photo details. Do not operate Wire Handler with the Transmission Safety Shield removed.
